# Cables & Brushes

**232 Residential cables are very flexible and will make multiple bends.**  
They will take brushes up to 12" in diameter. Lengths: 16', 23', 33', 39'

**238 Commercial cables are stiffer for longer runs and use any brush up to 36".**  
Lengths: 16', 23', 33', 39', 49', 66', 82', 98'

**261 Round brushes for normal pollution in circular ducts.**  
Sizes: 4", 6", 8", 10", 12", 16", 20", 24", 28", 32"

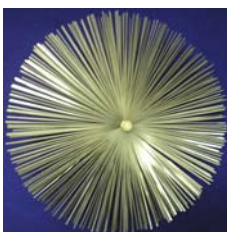

**262 Round Brushes—Nylon with steel for severe pollution**  
Sizes: 4", 6", 8", 10", 12", 16", 20", 24", 28", 32"

**263 Whip Brushes for rectangular ducts—whips get into corners**  
Sizes: 6", 8", 10", 12", 16", 20", 24"

**264 Soft Poly Brushes for insulated ducts, flex ducts or duct board**  
Sizes: 4", 6", 8", 10", 12", 16", 20", 24"

**265 Steel Brushes for severe pollution in kitchen ducts, dust collectors**  
Sizes: 4", 6", 8", 10", 12", 16", 20", 24"

242.032	Brush End	.13
242.038	Brush end	.15
242.012	Press Sockets—2 required	
242.001	Orange Casing	
240.032	Inner Thread	.13
240.038	Inner Thread	.15
243.032	Drill End	.13
243.038	Drill End	.15

# Compressed Air Cleaning Systems

**101.025 1" (25mm) Tornado Nozzle Cleaning Kit** comes with an 80 ft. (24 m) hose, shut-off valve and claw coupling, 1 hard plastic jet nozzle for sheet metal ducts and 1 aluminum nozzle for concrete ducts.

**100.025 Whipstream Riser Cleaner Kit** comes with an 80 ft (24 m) 1" diameter hose with claw coupling and shut-off valve. The Whipstream Riser Cleaner is the safest, fastest and most efficient way to clean risers. No more Confined Space Issues, Elaborate Rigging or OSHA Issues. The Whipstream technology is above the industry.

**100.012 1/2" (12 mm) Rotating Brush Nozzle Cleaning Kit** comes with an 80 ft (24 m) light weight cleaning hose on a reel, shut-off valve with claw coupling and 12 different brushes made of nylon and steel.

**160.012 Hose Reels for 1/2" (12 mm) Compressed Air Cleaning Kits** with claw coupling and shut-off valve.

# Residential Brushing Kit Special!

The Rotary Brush Kit contains everything you will need to brush most residential ductwork including  
**Metal – Fiberglass – Bag Duct**

Order by 1pm EST for same day shipping!

## Kit Includes:

[2- Flexible Cleaning Cables](#) (232.050-16', 232.070-23'). 1- 16 foot and 1- 23 foot. These cables have a solid inner core that allows you to spin the brush in either direction. This gives you more control and cleans both sides of the duct equally. You can even put the two cables together and reach 39' down the main ducts!

[2- Whip Brushes for Rectangular Ducts](#) (26308-8", 26312-12"). These 8" and 12" brushes have extra long, lighter strands that "whip" into corners that plain round brushes miss.

[2- Soft Poly Brushes for Insulated Ducts](#) (26408-8", 26412-12"). These 8" and 12" brushes are soft enough to remove the dirt from ductboard or lined ducting without damaging the surfaces. They are also excellent for flex ducting!

[3- Nylon Round Brushes](#) (26108-8", 26112-12", 26116-16"). These 8", 12" and 16" brushes are for round metal ducting.

[2- Nylon/Metal Brushes](#) (26204-4", 26206-6"). These 4" and 6" brushes are perfect for metal dryer ducts. The hard nylon removes most normal build up and the extra strands of metal remove the hardest caked on or rusted materials.
